Teaching Smarter, Learning with Confidence

Exploring practical approaches to teaching, learning and assessment in a digital world.

23 November 2026

8 AM - 1 PM

Lotte Hotel Yangon,
Sapphire Room 2&3 (2nd Floor)

Where your world grows

Cambridge Day

Myanmar 2026

About the event

Cambridge Day Myanmar 2026 is an opportunity for English language educators to come together, exchange ideas, and explore practical approaches to teaching and assessment in a changing educational environment.

This year's programme will look at how technology can be used in thoughtful and practical ways to support both teachers and learners. Participants will explore how AI can help with everyday teaching tasks, from lesson preparation and generating classroom ideas to providing more personalised support for learners. The focus will be on simple, realistic ways teachers can use these tools to save time, make informed teaching decisions, and create engaging learning experiences.

The programme will also consider the growing role of digital assessment for young learners. Teachers will explore ways to help children become familiar and comfortable with on-screen testing, while ensuring that language learning, confidence, and learner wellbeing remain at the centre of classroom practice. With practical activities, opportunities to exchange ideas, and approaches that can be adapted to different teaching contexts, **Cambridge Day Myanmar 2026** aims to leave participants with fresh ideas, greater confidence, and useful strategies they can take back to their classrooms.

Agenda

Cambridge Day
Myanmar 2026

08.00-09.00	**Registration**
09.00-09.10	**Opening Remarks** By Phaklada Phromphruk, Country Manager, Thailand, Cambodia, Myanmar and Laos
09.10-10.10	**Teaching Smarter with AI: Practical Tools for More Effective English Lessons** By Uyen Pham Laurin - Assessment Services Lead, Asia Pacific Cambridge University Press and Assessment
10.10-10.40	**Coffee Break**
10.40-11.40	**Building Confidence in Young Learners through Digital Testing** By Uyen Pham Laurin - Assessment Services Lead, Asia Pacific Cambridge University Press and Assessment
11.40-12.00	**FY26/27 Preparation Centre Loyalty Program Update**
12.00-12.20	**CEQ Digital Top Myanmar Scorers FY25/26 Award**
12.20-12.25	**Closing**

The Speaker

Cambridge Day
Myanmar 2026

Uyen Pham Laurin

Assessment Services Lead, Asia Pacific,
Cambridge University Press and Assessment

With 20 years of experience at Cambridge, Uyen has played a pivotal role in partnering with Ministries of Education across Southeast Asia, focusing on ELT innovation, language benchmarking, and curriculum reform for both educators and students. She has also led extensive teacher training programmes across the ASEAN region, equipping teachers with the skills needed to succeed in modern ELT environments.

Uyen holds a Master's degree in TESOL from Victoria University and a Postgraduate Advanced Certificate in Educational Assessment from the University of Cambridge.

Session Abstract

Teaching Smarter with AI: Practical Tools for More Effective English Lessons

This practical session explores how AI-powered tools can support English teachers in planning more focused, engaging, and effective lessons. Participants will explore ways AI can help streamline lesson preparation, personalise learning support, generate classroom ideas, and make teaching decisions more purposeful. Through hands-on activities, teachers will have opportunities to experiment with AI tools and reflect on how they can be used meaningfully to support teaching and learning in today's classrooms.

Building Confidence in Young Learners through Digital Testing

As digital assessment becomes an increasingly important part of young learners' educational journeys, teachers play a key role in helping children approach on-screen tests with confidence, familiarity, and a positive mindset. This session explores practical ways to prepare learners for the new Cambridge Digital Young Learners' tests while keeping the focus firmly on language learning, wellbeing, and age-appropriate classroom practice.
